

## Washington Report

by  
**GEORGE ANDREWS**

Member of Congress  
Third District of Ala.

In the wake of Justice Department attacks on public schools in the South, last week called on Attorney General John Mitchell to take legal action against school districts outside the South which are practicing segregation, but getting off the hook completely.

The following are excerpts from my letter to the Attorney General: The time has come for the Justice Department to expand its activities in the field of public school desegregation to other states and other school systems outside the South.

"Now that public education in the South has been reduced to a mass of abandoned and half-empty schools, it is time to take this experiment to other areas where segregation is conveniently preserved through neighborhood patterns and, more importantly, through the absence of any pressure from the Departments of Justice and Health, Education and Welfare.

"In reality, of course, there is no legal justification for basing to achieve racial balance in any public school in any part of the nation. The prohibition against such action has been clearly and emphatically stated by Congress in the Civil Rights Act of 1964, Elementary and Secondary Education Act of 1965, and the HEW Appropriations Bill for Fiscal Year 1969.

"However, if the Justice Department is determined to send its lawyers into Southern school districts to ascertain that teachers are forced to violate their contracts, children are herded about like cattle, and local school boards and administrators are rendered helpless to make their own decisions, then that same Justice Department should do likewise in other sections of the country.

"Your department has ample justification for legal action in other states, notably New York, Illinois, Ohio, Wisconsin, Missouri, and Indiana.

"I bring to your attention the official records of the Department of HEW, which show that the District of Columbia public schools are 9.9 percent integrated; Chicago, Ill., 3.2 percent integrated; Gary, Ind., 3.1 percent; St. Louis, Mo., 7.1 percent; New York City, 7.1 percent; Cincinnati, Ohio, 22.3 percent; and Milwaukee, Wis., 18.5 percent.

"Both Mobile, Ala., and Atlanta, Ga., have higher percentages of desegregation than Gary or Chicago. Yet, this very fall, the Mobile public schools have been the target of massive desegregation efforts by agencies of the Federal Government, while Mayor Daley's Chicago and its 3.2 percent effort has been virtually untouched.

"I am aware that the Department of HEW has sought to justify its actions against Southern school districts on grounds that these systems are the result of 'de jure' segregation, rather than 'de facto' segregation, which presumably protects systems outside the South from harassment.

"This supposition is pure myth and a flagrant

My Neighbors

"Couldn't I put this on my Diner's Club card?"

ment and transportation of pupils by school officials and by the courts for the purpose of overcoming racial imbalance in the schools.

"Even if there were grounds for the de facto

de jure distinction, the states of New York, California, Illinois, Indiana, New Jersey, and Ohio would fit the de jure classification as surely as any of the Southern states concerned.

"For example, Indiana

states authorized segregation but equal public schools until 1940, while New Jersey allowed separate schools for Negroes, and Ohio, Delaware, and Ohio.

"My purpose in bringing relevant facts regarding the public school situation

in non-Southern states to your attention is to demonstrate the shameful discrimination in the administration of justice afforded by the Department of Justice to act on these Southern states and their respective public school systems.

"The facts about segregation outside the South

are equally as shameful as those in the South. It is time for the Department of Justice to act on these Southern states and their respective public school systems.

"The facts about segregation outside the South

are equally as shameful as those in the South. It is time for the Department of Justice to act on these Southern states and their respective public school systems.

Miss King, Miss Weeks, Miss Jones

## Sharon Weeks Named Miss Kinston

The annual Miss Kinston contest was held last Thursday night in the Kinston High Auditorium before a full house.

Named Miss Kinston for 1970-71 was Miss Sharon Weeks, 17 year old daughter of Mr. and Mrs. Bud Weeks of Rt. 2, Kinston, King.

She is 5 feet, 6 inches tall, Miss Weeks has light brown hair and green eyes. She weighs 122 pounds. Her favorite hobby is reading and she hopes to be a model when she finishes school.

First runner-up was Miss Joe Ann Jones, also seventeen and a senior at Kinston. She has long brown hair and brown eyes.

The winner was crowned by the 1969-70 Miss Kinston, Miss Janice King.

She is 5 feet, 6 inches tall, Miss Weeks has light brown hair and green eyes. She weighs 122 pounds. Her favorite hobby is reading and she hopes to be a model when she finishes school.

First runner-up was Miss Joe Ann Jones, also seventeen and a senior at Kinston. She has long brown hair and brown eyes.

The winner was crowned by the 1969-70 Miss Kinston, Miss Janice King.

## Holliman To Speak In Elba

Tuesday

Guest speaker at the Elba Quaterback Club next week will be Ray Holliman, Sports writer of the Alabama Journal.

The meeting will be held Tuesday night, October 13, at the Elba Country Club. The meeting begins at 7:30 p.m. according to Quaterback Tommy Wise.

Masons Plan

Conference In

Elba Saturday

Masons will meet in Elba Saturday, October 10 for the Elba County Masonic Conference. The conference will begin at 9 o'clock Saturday morning. Lunch will be served.

All Master Masons are especially invited and urged to attend. F. Capps is Worshipful Master of the Elba Chapter.

Brundage Upsets Elba

Friday Night 27-13

The big Brundage Bulldogs kicked the extra point and the score was Elba 7, Brundage 0. Holley saw only limited action due to a badly sprained ankle.

The game rocked back and forth during the remainder of the first quarter and into the second before Brundage's Thornton broke loose for 42 yards and a touchdown.

The Elba Tigers were fired up after that and on the first play after the ensuing kick-off, Dennis Smith broke loose again and with head bent forward successfully set out 68 yards for the goal line.

Score Elba 13, Brundage 6. Elba managed to hold the Bulldogs from scoring in the remainder of the quarter by several "extra" points.

The half ended with Elba driving for another TD on hard runs by David Stinson and a 20-yard scamper by Creel. Stinson broke at least two tackles to get a first down on this drive.

Stinson and Bill Scarbrough tackled the Brundage halfback after he took a pitchout for a 10-yard wing instrument training and advanced fixed wing instrument training at Ft. Rucker.

Proposals are to be in the hands of the contracting and procurement officer at the post by Oct. 30. They will be reviewed and evaluated for technical, management and financial competence by Ft. Rucker officials and other appropriate Department of Defense Agencies and then a contract will be negotiated.

Officials hope to make the contract award by December 4.

Legion To Meet

Tonight For Supper

The American Legion and Auxiliary will meet tonight (Thursday, Oct. 8) at the Legion Home.

Members will enjoy a covered dish supper prior to the business sessions. All members are urged to attend. Visitors are invited.

A question in the mind

Continued on page 8

## Kleinert's Plans Open House

Open House will be observed Sunday afternoon, October 11, at Kleinert's, Inc., Elba's newest industry. Visitors will be greeted by members of the Elba Industrial Board and officers of the Kleinert's operation. Visitors will be served refreshments and conducted on a tour of the new modern manufacturing facilities. Open House hours are 2 o'clock until 6 o'clock Sunday afternoon.

The first announcement of the location of this industry in Elba was April 24, 1969, when city officials, state officials and bond salesmen began work with the J. B. Kleinert Rubber Company of New York, made a trip to Elba May 21 to complete plans for coming to Elba.

On Wednesday, May 21, Mayor Jack Brunson and John Stephens signed papers signaling the go-ahead of the training plant for workers to be employed by the multi-million dollar plant in Elba. Workers started training in the training plant in September, 1969.

The first of October, 1969, Governor Albert Brewer officially announced that one of the nation's foremost garment manufacturers, the Kleinert's, Inc., would build a \$3 million plant in Elba, joining the Governor in announcing the new industry was Elba's Mayor Jack Brunson, and John Stephens, President of the Kleinert's Company. In a picture carried in The Elba Clipper, October 2, 1969, was the Governor, Mr. Stephens, Mayor Brunson, Alvin Dorsky of New York, attorney for Kleinert's, Inc., Drexel Cook, Coffee County member House of Representatives, and John Gandy, Montgomery architect, who designed the new plant.

Governor Brewer called the announcement, one of the finest industrial achievements of 1969, for the State of Alabama. Governor Brewer said, "I congratulate the officials of Kleinert's on the decision to locate in Alabama and in Elba."

The plant is now employing approximately 500 sewing machine operators and administrative personnel. Company officials say they expect to be providing jobs for nearly 2,000 workers by 1972, when the payroll will be over \$6 million. It is expected that around 1,000 employees will be on the payroll by early 1971.

Kleinert's, Inc., is one of the nation's oldest manufacturing companies. It was founded over 100 years ago in New York City. The Elba plant is located in

the Elba Industrial Park on a twenty-acre site. Kleinert's, Inc., manufactures a large variety of garment products in its new Elba plant, including infant wear, dress and garment shields, shower curtains, and shower caps.

According to the annual report of their stockholders last year, it was announced that in the course of the overall survey of the Company's operation, it became evident that a number of facilities were obsolete and accordingly, had decided to relocate their manufacturing operations from College Point, New York, to Elba. It was announced to stockholders that the central

SERVICE SUMMERS—Back at the books after summer work in hospitals and colleges are University of Alabama dietetics majors from left: Janis Rhodes, Tuscaloosa; Suzanne Prior, Elba; Mary McGahren, Huntsville; and Elaine Prewitt, Fayette.

## Miss Prior Gets Training

One student worked at an Army hospital and at a camp for diabetic children. Another was tutor-counselor for low income students with college potential. A third worked with overweight children and young retarded women. A fourth student was a diet clerk in a Birmingham area hospital. All dietetics majors at the University of Alabama, these students spent their summers in service and/or nutrition-related fields.

Miss Janis Rhodes, a senior and the daughter of Mr. and Mrs. Roy W. Rhodes of Tuscaloosa, was in the Summer Work Experience and Training (SWEAT) Program at the Center for Learning and Developmental Disorders in Birmingham. Miss Suzanne Prior, a senior from Elba, began her summer at William Beaumont General Hospital in El Paso, Texas, where she spent four weeks during the two-week as a summer practicum session at the Mobile area service division. Working with five other cards for each camper dietetics majors two of whom were University of Alabama students, Miss Prior observed the planning of diets, preparation and service of food and talked with patients about their reactions to their hospital diets. "All of our work was supervised by Army dietitians," she said. "I learned more about dietetics and the problems and how to deal with them."

From Texas, Miss Prior, daughter of Mr. and Mrs. Stanley Prior of Elba, went to Camp Seale Harris, a camp for diabetic children between the ages of eight and 15.

As a member of the dietetic staff, she worked directly with the children

## Kinback Is Sophomore At Air Force Academy

Cadet Alan C. Kinback, son of Major and Mrs. George E. Kinback, Jr., of Elba, Ala., is one of more than 116 cadets who have entered their sophomore year at the U. S. Air Force Academy. During the past summer, Cadet Kinback and other members of the class of '73 completed an intensive six-week training program at the academy and armed forces installations across the country. The cadets were trained in survival techniques and base defense tactics in the rugged Rampart Range area near the academy. They also completed a combat course in infantry weapons at nearby Ft. Carson, Colo. Cadet Kinback will be commissioned a second lieutenant and awarded a B.S. degree upon his graduation from the academy. The cadet is a 1969 graduate of Enterprise (Ala.) High School. The difference between "she's good looking" and "she's looking good" is about 20 years and 40 pounds.—Robert D. Burgess, The Opp (Ala.) News.

It's a lot like being married to an ugly woman.

The faithful little Volkswagen. It waits for you patiently at the train station every evening. And delivers you there just as faithfully in the morning.

It doesn't ask much. A gallon of gasoline about every 26 miles, very little oil and that's about it. It handles well in crowds. It won't embarrass you in parking situations.

And best of all, it's not a big spender. Sure, you may sometimes hunger for a big, sleek piece of machinery. But, when it comes right down to living with a car day after day, you'd be hard pressed to find anything more dependable than a Volkswagen. We now pronounce you man and bug.

## Gloria Jean Waters Wins Delta Air Lines Stewardess Wings

Miss Gloria Jean Waters has "won her wings" and is now a stewardess with Delta Air Lines. Daughter of Mr. and Mrs. Gaynes Waters of 761 Adams Street, Elba, Alabama, she completed the four-week training course at Delta's Stewardess School at the Atlanta Airport and is now proudly wearing the chic uniform and cap of the nation's fifth largest airline. From her base station of Atlanta, she will fly to many of the 63 cities served by Delta in 23 states, the District of Columbia and the Caribbean.

Miss Waters is a graduate of Mulberry Heights High School, Elba, Alabama; and of Tuskegee Institute, Tuskegee, Alabama.

## The Joe Frees Are Parents Of Baby Girl

Mr. and Mrs. Joe Frees of Elba have named their daughter Christian Michelle. She arrived September 12 at 5:22 in an Enterprise hospital and weighed seven pounds. Proud grandparents of the new baby are Mr. and Mrs. William Scarbrough and Mr. and Mrs. Irvin Frees, all of Elba.

## Olive C. Purvis Elected To Platform Association

The Board of Governors of the International Platform Association wish to announce the election to its membership of: Mary O. Carnley Purvis, 3554 Le Bron Road, Montgomery, Alabama 36111. The 67-year-old International Platform Association is a non-partisan organization of distinguished and dedicated persons from twenty-seven nations. Originally brought into existence by Mark Twain, William Jennings Bryan, Carl Sandburg, President William Howard Taft, Governor Paul Pearson, and other orators and

## Three Seasons Study Club Hold Meeting

The Three Seasons Study Club held a business meeting September 14 at a local restaurant. The hostesses for this meeting were Mrs. Lloyd Daniels and Mrs. James R. Peacock. A delicious congealed salad was served.

The new officers for the Club year are: Mrs. James Rhodes, president; Mrs. Jimmy Hornsby, vice president; Mrs. Tom Dyess, recording secretary; Mrs. Zackey Storey, corresponding secretary; Mrs. Harold Berry, parliamentarian.

Those present were Mrs. Harold Berry, Mrs. Terry Butts, Mrs. Fred Cranton, Mrs. Lloyd Daniels, Mrs. Tom Dyess, Mrs. Wilson Dyess, Mrs. Kimmeyham, Mrs. Jimmy Hornsby, Mrs. Paul Hudson, Mrs. Rickey Kennett, Mrs. Paul King, Mrs. Wayne Marler, Mrs. Vernon Nicky, Mrs. Jack Padgett, Mrs. Bobby Parker, Mrs. James Peacock, Mrs. James Rhodes, Mrs. Fred Smith, Jr., Mrs. John R. Smith, Mrs. Zackey Storey, Mrs. Jimmy Wise and Mrs. Danny Teel.

celebrities of the old Chattanooga, the IPA has included among its distinguished members Presidents Franklin and Theodore Roosevelt, Woodrow Wilson, John Kennedy, Lyndon Johnson and Richard Nixon. Also, in its membership are many of the celebrities of the news and entertainment media—the press, TV, radio, the movies and the theatre. For over two generations IPA members have been instrumental in bettering the quality of the American Platform, particularly as it relates to the important field of school assembly programs available to children. Every year the IPA holds a five-day summer convention in Washington, D.C., attended last year by almost twelve hundred members. The most pressing national and international problems of the day are discussed by those nationally prominent figures (most of them IPA members) who are, because they hold the levers of power, in the best position to argue informatively on one or the other side of every question. Among those who have appeared before past meet-

ings have been Atomic Energy Commission Chairman Glenn Seaborg, Lowell Thomas, Lyndon Johnson, Congressman Gerald Ford, Jeane Dixon, Hubert Humphrey, Governor Nelson Rockefeller, Secretary of Housing and Urban Development George Romney, Mayor Lindsay, Senator Muskie, Martin Luther King, Senator Goldwater, Senator Hugh Scott, Ralph Nader, "Dear Abby", Van Buren, secretary of State Dean Rusk, Drew Pearson, David Brinkley, Clark Mollenhoff, Fulton Lewis III, Jack Anderson, Senator Fulbright, Roy Wilkins, Senator Morse, Averell Harriman, Senator Percy, Jack Anderson and scores of others of similar caliber.

The IPA is in effect the oratory and the power of club or trade association the spoken word, of those who appear before Mrs. Purvis is the audiences in all media and ghter of Mr. and Mrs. of those interested in Fleetwood Garnley of Elba.

## COFFEE NEWS & CHAT

BY SARA HUTCHISON

### FOOD BILLS

Food is not expensive when compared to other goods and services. Most items in the family's living budget are fixed, but the grocery bill is flexible. Frequently it goes up because of the non-food items.

If your actual food bill is too high, you can do something about it. The average American family throws away two-thirds of a pound of food per person each day. This waste increases the total cost of your food. Comparing grocery store values takes time but can save you money. Also, the more you visit the market, the more you are likely to spend. The average consumer spends almost nine dollars with each trip to the super-market.

**CHILDREN'S CLOTHES**  
When buying children's clothes, there are several things to remember that will make them wear longer and require less upkeep. Look for deep hems in girls' dresses and longer boy's shirts. Check to see if buttons and button-holes are inter-faced. Deep-cut armholes, no waistline dresses and shirts with long tails will allow for greater growth and longer wear. Always consider colorfastness. The more garments that can be washed in the regular wash, the simpler laundering will be.

**SHORTENING**  
What is meant by the term "shortening"? Shortenings are the fat products used in the preparations of many foods because they give a "short" or friable quality to baked goods.

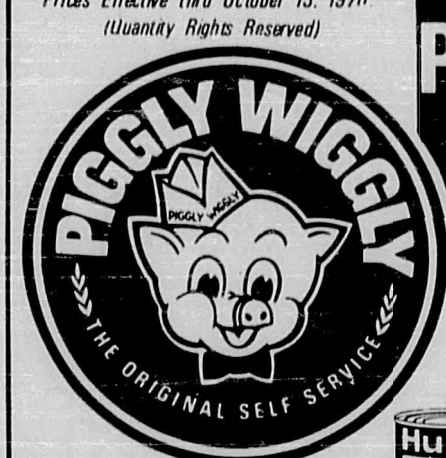

**NEW PROCESS BY USDA**  
Truly machine-washable wool knitwear? Knitwear that maintains its shape and appearance after repeated home launderings on normal wash cycles? A new ARS experimental process being developed by the U. S. Department of Agriculture makes this possible. Just why does wool knit-

## COFFEE

wear shrink in the first place? Knitwear presents a more difficult problem than woven fabric because the knit structure is comparatively loose and yarns in the knitted loops tend to shift and adjust during washing. This is called "relaxation shrinkage" even when the yarn itself is shrinkproof. In addition -- fibers in the yarn tend to work loose and cause fuzziness; sometimes in washing the loose fibers roll together in little balls or "pills". Most of the washable knits now available should be hand-washed or machine-

washed on the gentle cycle to avoid this deterioration problem. Now, after extensive evaluation of the new wool shrink-proofing process maintained by USDA in 1963 appearance of the knitwear after repeated machine washings on the regular cycle, presented no problem. A coating of two chemicals reacts on the fiber surface to form an extremely thick, tough, inert coating on individual fibers. This research also led to the development of a fully automated machine capable of treating about 50 pounds of knitwear in a batch.

## TOUR OF THE ORIENT

By Mrs. Kimmey

Part 3  
In Kyoto, Japan, one is impressed by the great age of things. Because it had no military installations most of the city escaped the bombing of the late world war. The same is not true of Tokyo. Most of it was destroyed. Today all the scars are covered, however, and this largest city in the world is one of tall buildings been allowed. This was because of the frequent earthquakes and a population of eleven million. It is a hodgepodge of little communities which have been engulfed by the growth of the city, and an inner city of skyscrapers, hill surrounded by a four of century old garden. The new methods of construction were developed, having a feudal lord. When Mr.

NEXT DOOR TO SEARS ON THE SQUARE

Otani bought it he left the garden as it was but added numerous red stones from his personal collection. Large stones are a feature in all Japanese gardens. Either they are surrounded by water or, as in the case of the hotel, by small pebbles raked in intricate patterns. There are azaleas, camellias and many cherry trees. It must be beautiful in the spring. Paths wind among the trees crossing bridges which span man-made ponds and lead to a tea house almost hidden by the shadows. There are many birds.

It would take a month to visit all the places of interest but we saw many of them on a tour of the city. We drove past the Diet Building, home of both Japanese Houses of Parliament. This is an attractive building something like our National Capitol. Parliament governs Japan for since the war the Emperor has no power. Our first stop was the Meiji Shrine.

## the martian question

Something to think about... If there are intelligent creatures on some other planet, your son and mine may one day meet them!

What sort of people would you hope these "Martians" to be?

Believers in God... or atheists? Men and women with spiritual ideals... or materialists of the Kremlin vintage?

Warm-hearted, friendly, with a Christian sense of values... or ruthless, indifferent, dedicated only to self?

WOULDN'T IT BE HEARTENING to find on that planet a world of churches... of faith... of folks at worship and at work for the Truth revealed to them by God?

Something to think about... Next Sunday! In this world! Which isn't yet all we want Mars to be!

SPOTLIGHT - Kleinert's First  
Elba Employee

GROUND BEEF MIX

4 medium onions, chopped  
3 zellie buns, chopped  
2 c. celery tops, chopped  
1/2 c. fat  
4 lbs. ground BEEF  
4 t. salt  
1 t. pepper  
3 T. Worcestershire sauce  
2 12-oz. bottles catsup

Saute the onion, garlic and  
celery in fat in large skillet or  
dutch oven. Add ground BEEF  
and stir and cook until all red-  
ness of the BEEF disappears.  
Add salt, pepper, Worcestershire  
and catsup. Simmer 20 minutes.  
Skim off excess fat.

To Freeze: Cool quickly. Spoon  
the mixture into five 1-pint con-  
tainers, and store up to three  
months.

Beefburger on Buns: Heat mix-  
ture slowly in skillet or double  
boiler. Spread on hot buttered  
buns.

Chili Con Carne: Heat mixture  
with an equal measure of  
canned red kidney beans. Season  
with chili powder.

Spaghetti: Heat mixture. Add  
a dash of cayenne pepper or ta-  
basco and garlic salt. Serve on  
hot cooked spaghetti and top  
with Parmesan cheese.

Beef and Noodles: Heat 1 pint  
of beef mixture, add 2 cups  
cooked noodles and 1 cup canned  
mixed vegetables. Stir. Sprinkle  
1/2 cup grated cheese and 1/2 tsp.  
chopped parsley over top. Heat  
in oven.

Beef and Rice: Heat 1 pint  
mix. Add 2 cups cooked rice and  
1/2 cup chopped green pepper.  
Simmer to blend flavor and cook  
pepper.

Peppers Stuffed With Beef:  
Use the beefrice mix above to  
stuff 8 hollowed out green pep-  
pers. Bake in a shallow pan in a  
375 degree oven about 50 min.

Rhonda Killingsworth  
Selected As 4-H State  
Scholarship Winner

A happy occasion for Rhonda Killingsworth, a hardworking Coffee County 4-H Club member, was her notification of having been selected the 1970 state winner in the Alabama Junior 4-H Leadership Scholarship Award Program. The \$100 scholarship, donated each year by Flint River Mills, Inc., of Bainbridge, Georgia, is awarded to one Alabama 4-H Club member for outstanding junior leadership done by an older boy or girl. Entries in the program are judged on 4-H Leadership, personal improvement and 4-H projects and activities. Rhonda is strong in all of these areas and is an officer and junior leader of a 15-member out-of-school 4-H Club in the Victoria Community.

The 18-year old daughter of Mr. and Mrs. Coley W. Killingsworth, Rhonda has had other 4-H successes. Among these are three time county winner in the Breads and Dairy Food Award Program; recipient of a ladies' wrist watch for the county best overall record book for Sr. 4-H girls; cookbook award winner; participant for three consecutive years in District 4-H Award Programs in Auburn; District first place winner in Bread Illustrated Talk Award Program; participant in the state 4-H Award Program.

Following high school graduation this year, Rhonda plans to continue her education by entering college and majoring in home economics. Needless to say, the scholarship will do much to enable Rhonda to reach her final goal.

### KERSHNER-ROWE COMMENTARY

The Failure of Gov't Subsidy

A recent dispatch in THE NEW YORK TIMES reads as follows:

"In St. Louis, up to 40 percent of the apartments in public housing projects stand vacant, shunned by impoverished families, who prefer the discomforts of the surrounding slums to the fear of crime in the projects, which can no longer afford security guards. Deterioration in public housing projects across the country is reaching catastrophic proportions. Builders are in need of replacement and lapses of heat are expected. Windows stay broken for days as maintenance crews are unable to keep up with their work."

This illustrates the failure of government subsidy. It is very difficult — almost impossible — to confer by gift decent living conditions upon anyone without destroying character. What people get for nothing is not appreciated. The recipients soon begin to expect it, and even to demand it.

Not long ago the press carried a story of some city official who recommended a special clothing allowance for relief "clients." Shortly thereafter mobs gathered around the relief offices shouting, "We want our money, and we want it now." Already a large section of the public has come to believe that the various handouts they get from government is "our money." Some 40 million people receiving these relief checks are forming an increasingly powerful lobby which it is difficult for the candidate for office to displease.

Free food, free housing, free education, almost free medical care, and heavily subsidized entertainment is already being supplied for tens of millions of people.

For a long generation we have been warning America that we cannot retain our freedom if government undertakes to supply the wants and needs of the people.

The matter was stated forcefully by Prof. Alexander Fraser Tyler in England nearly 40 years ago, in the following trenchant words: "A democracy cannot exist as a permanent form of government. It can exist only until the voters discover that they can vote themselves largess out of the public treasury. From that moment on the majority always votes for the candidate promising the most benefits from the public treasury — with the result — that democracy always collapses over a loose fiscal policy, always to be followed by dictatorship."

We would do well to ponder these timely words and act before we permit our government to regulate and control every phase of our lives — thus bringing to an end freedom for us all — as we know it.

Jack King, Harry Topper, Tom Abraham, Al Carlisle, A. C. Brunson, Jr., Don Teel

### Notify Social Security of Any Address Changes

"Mobility is a way of life for the American people. This may cause special problems for social security beneficiaries," stated Harry N. Scott, District Manager of the Social Security Administration. When a social security beneficiary moves and does not change his address with the Social Security Administration, his check may be delayed.

Scott added there are at least two things anyone receiving social security should do when he moves. First, he should contact his Social Security Office by telephone, mail or in person to let them know of his new address. He may use the card provided when he filed for social security checks. Second, he should change his address with his local Post Office. In the event notice is not received by the Treasury Department in time to correct the address on the check, the Post Office may forward the check to the new address.

Scott encouraged those who have any questions about their social security to contact the nearest Social Security Office. There is always someone on hand to help with your social security problems. The telephone number is 794-3161.

### Enrollment At Jr. College Largest Ever

Enterprise State Junior College has the greatest enrollment this fall since opening in 1965.

Final enrollment figures show that 1,387 students are enrolled, with a full-time equivalent of 1,028. This is a 29 percent increase over enrollment last year. Last year 1,050 students were enrolled ESJC, with a full-time equivalent of 795. "We anticipated about a 15 to 20 percent increase in enrollment over last year," Tommy Guthrie, Dean of Admissions and Records, said. B. A. Forrester, President, said that the five buildings on campus have reached their capacity. Another area, President Forrester said, that has reached capacity is the parking lot. Students are having to park in no-parking zones and on the grass.

### AFTER A CORONARY

You've had a heart attack, your doctor assures you about recovery, but you still have doubts. That's only natural, says the Alabama Heart Association, but the record shows there is room for optimism. More than 3.7 million Americans are alive who have suffered a heart attack.

To help answer questions frequently asked by heart patients, the Alabama Heart Association will supply some recreation, exercise in moderation and social life are good.

The majority of patients are able to play golf, take walks, fish, swim or engage in similar activities without difficulties. Doctors believe that moderate exercise is beneficial for most patients, providing it is supervised and does not cause pain, shortness of breath, or other disturbing symptoms.

It is essential to eat less saturated fats, replacing these with polyunsaturated fats, to reduce the amount of cholesterol in the blood, a lower cholesterol level

tends to slow the process of hardening of the arteries which is behind most heart attacks. Eating less to keep weight at or below normal is recommended. It also is advisable to eat several light meals rather than three large ones each day.

Cigarette smoking is a health hazard for anyone and a special risk for persons with coronary disease. It should be avoided completely. Moderate amounts of alcohol and coffee are permissible. As for medication, the physician will prescribe for individual needs and his advice must be followed strictly.

For more information, ask the Alabama Heart Association for the booklet, "After A Coronary." Write Alabama Heart Association, P. O. Box 31085, Birmingham, Alabama 35222.

### Medicare Helps

In Payment Of

Hospital Bills

If you've been in the hospital recently, "settling up the bill" can be a pretty painful experience. For those of you "young" enough to be covered under Medicare — the "lion's share" of the bill will be paid, but you will probably have to pay some of it.

The first \$52 of the hospital bill in each spell of illness will come out of your pocket. In addition, if you are in the hospital over 60 days, you will pay \$15 a day for the days through the 90th day. If you should need hospitalization beyond 90 days in a spell of illness, it will cost you \$26 a day for any of the lifetime reserve that

you use. The expense of comfort items such as a television, radio, or telephone must be paid by you. If you have a private room, you will usually have to pay the difference between it and a semi-private room. Other reasonable charges made by the hospital will be paid by Medicare. So if you have any questions about Medicare, call your Social Security Office at 794-3161.

By Tom Casaday, County Extension Chairman

**CORN RECOGNITION DINNER**

Even though this has been a poor year for corn production, it is much better than last year's drought played crop. This year Enterprise will host the Wiregrass 100 Bushel Corn Contest. Folks will be attending the recognition dinner on November 23 from Houston, Henry, Dale, Geneva and Coffee counties. We are getting yields on some of the folks who will be attending. Some of these are 1. elon and Allen Weeks of Kinston, M. J. Sanders, Carl Sanders, and Kenneth Sanders of New Hope and Roeton, and James and Jimmy Martin of County Line.

**MAILING LISTS**

We have mailing lists of farmers engaged in peanuts, cotton, corn, pastures, beef cattle, hogs, forestry, dairying, truck

crops, and others. A lot of times people ask about being added to certain lists. We are happy to do this and if you have a particular interest in any subject, we will be glad to include you in that list.

On the other hand, if you are on one of our mailing lists that you are no longer interested in, I would appreciate your letting us know to take your name off that list. We certainly don't want to bother you with information which you cannot use.

**PEANUT CLUB**

The 1970 Alabama Peanut Club rules have been changed. This year the record must include the grower's entire peanut acreage and contain at least ten acres. Simply stated the grower's peanut acreage must be ten acres or more and must have a yield of at least 3,000 pounds per acre on his entire production.

Heretofore, a person making 3,000 pounds on at least five acres was eligible. I don't know how many Coffee County folks will make the Club this year, but we should have a representative group to attend the recognition dinner.

**POND MANAGEMENT**

Earl F. Kennamer, our fish and wildlife specialist, gives three benefits from drawing down fish pond water during the cool fall and winter. First, drawing down the water level in late October exposes bluegill beds so that late spawning and subsequent overpopulation of bluegills are cancelled. Second, drawing down the water level from a weedy shoreline removes the protection to small fish and crowds them into a smaller area so bass can readily catch these fish before water temperatures drop below 55 degrees F. Third, removing water from the shallow shoreline permits the pond owner to dig down the feather edges of his pond to give a two-foot depth at all points and thus minimize future

weed infestation. Drawing down also gives pond owners a chance to repair or build piers, erect boat-houses, clean up bottles and other debris, etc.

**EARWIG CONTROL**

About this time of the year Coffee County house-holds become infested with earwigs. It is thought that they move through the houses at this time of the year in September, October and November in search of food or warmth. They move around searching for food only at night. They really enjoy bits of dried fruits, vegetables or other decaying plant material. Outside of the house they are most often found in well-mulched flower beds. They are easily recognized by the presence of forcep-like pinchers at the rear of the abdomen.

When disturbed, they act like they will sting or pinch but actually they don't sting and they are too weak to pinch hard enough to be felt. The best way to control earwigs is to clean up trash around the house and dust a 10-foot wide band around the house foundation using 20% Toxaphene or 10% Sevin.

**HERD MANAGEMENT**

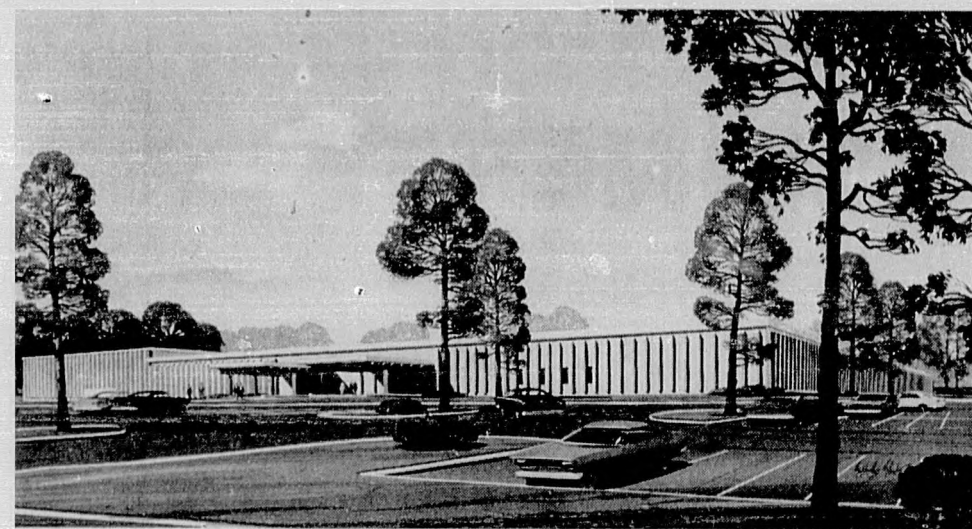

A lot of Coffee County cattle producers are losing money by having calves born in the summer months. A research of calf records show that summer calves are 25-30 pounds lighter than calves born in the spring. One sure way to prevent summer calves is to keep bulls away from the cow herd from August 20 to November 20.

Each Coffee County cattle producer might want to look at his feed program and labor situation and decide what calving season best fits his operation and then work toward a 90-day calving season. This will result in a uniform group of calves.

NUMBER 13

Elba Hospital  
Holds "Disaster  
Drill" Tuesday

In case of a disaster, Elba General Hospital is ready to swing into action to aid victims.

Administrator, Lowell Benton said the hospital's emergency capabilities were put to the test Tuesday October 13, 1970 when the staff members in all departments participated in a "disaster drill," an actual simulation of what would be required of hospital in case of such an occurrence.

In addition to Elba General Hospital, local Police Department and Elba Rescue Squad activated disaster preparedness programs.

The drill Tuesday at Elba General Hospital was one in a series of disaster drills held by hospitals statewide, timed at 4:00 P. M. to test emergency capabilities. Several hospitals and facilities in neighboring states also participated in the drill.

Mr. Benton said the "Disaster Drill" procedure is the most effective way to test hospital's ability to respond to an emergency. "I am well pleased with the performance of Elba General Hospital staff members during Tuesday's operations," he said.

Heading the program of statewide coordination was Duane T. Houtz, Administrator, Baptist Medical Center - Montgomery, Birmingham. He said the cooperation of hospitals and other emergency facilities across the state is a major step toward the coordination of facilities on a regional statewide basis.

Kenneth Hudson is the coordinator of the disaster drill at Elba General Hospital.

The three Elba doctors participated in this drill.

KLEINERT'S RIBBON CUTTING performed by Mayor Jack Brunson while Board Chairman Jack Briar, right, and President John Stephens, left, look on. The event took place Sunday afternoon at the new Kleinert's plant was dedicated by the company and the Elba Industrial Board, which floated the \$2,000,000 bond issue to build the plant.

There were approximately 2,500 people who toured the huge plant Sunday following the dedication speech and ribbon cutting ceremony. The visitors repeatedly expressed amazement at the size of the plant. They were favorably impressed with the variety and the beauty of the many colorful and useful items produced in the Elba plant. The employees break room was a popular stopping place also, as soft drinks, coffee and a long table of snacks were provided for the visitors.

## Elba Defeats Enterprise

The Elba Tigers returned in true Elba Tiger form last Friday night, and defeated the Enterprise Wildcats 15-6. The decisive defeat of the big 4-A cross-country rival came on the heels of last week's upset loss to Brundidge. This win over Enterprise extended the Tiger record to 5 wins and 1 loss on the gridiron.

Elba won the game both in the score and in the statistics department. Elba completed only one pass for 19 yards and six points. Elba received 55 yards of

penalties. Enterprise rushed for 123 yards and 12 first downs. They completed four passes for 58 yards and were penalized 17 yards.

Again the leading rusher for the Elba Tigers was Dennis Smith who gained 129 yards. He had one run for 70 yards that set up the first Elba TD and another for 68 yards that set up a field goal. He also intercepted one Enterprise pass and ran it back 39 yards to set up an Elba TD.

The game opened with Elba kicking to Enterprise. The Wildcats gave the Elba fans a scare as they marched to the 15 yard line before the Elba Tigers stopped their drive.

Elba took over and drove to the Enterprise 18, only to give up the ball on downs.

Enterprise could not move the ball this time and punted to the Elba 41. The Tigers started moving the ball again and drove to the Enterprise 36 and on a fourth down and one yard situation, Smith got the first down.

On the next play Elba fumbled and Enterprise recovered on their own 35.

The ball switched up and down the field several times with Elba losing ground until Finley Clark booted a kick from his own 18 to the Enterprise 33.

Enterprise moved the ball to the 49 yard line, and on the next play Phil English and Bill Scarbrough clobbered the Enterprise quarterback for no gain as he tried to pass. On the next play Dennis Smith broke loose for seventy yards only to be caught by Enterprise's Bill Brundidge on the three yard line.

Enterprise kicked the ball and Elba took over on their own 15. David Stinson broke two tackles for a list down at the 27. On the next play Phil English broke loose for seventy yards only to be caught by Enterprise's Bill Brundidge on the three yard line.

Enterprise kicked the ball and Elba took over on their own 15. David Stinson broke two tackles for a list down at the 27. On the next play Phil English broke loose for seventy yards only to be caught by Enterprise's Bill Brundidge on the three yard line.

Local 4-H's  
National  
Project Winners

Psyche Patterson, state 4-H project winner in frozen foods, and Carl Sanders, state 4-H winner in field crops science, are Coffee County's first state 4-H project winners.

Psyche is the daughter of Mr. and Mrs. C. C. Patterson of Route 2, Brundage. These two 4-H'ers will be part of Alabama's 38-member delegation to attend the National 4-H Congress in Chicago next month.

"Little did I dream how much my 4-H Frozen Food Project would mean to me when I enrolled in it in September, 1963," these are the words of 16-year-old Psyche Patterson of Kinston.

4-H is not new to the Patterson family. Psyche grew up in a family who has always been active in 4-H Club, home and Extension Service Programs.

Having four older brothers who were also 4-H'ers has naturally oriented Psyche in the same direction.

To realize the value of the home freezer and Psyche's Frozen Food Project, let's consider the time of the Patterson family's greatest crisis. Threfreezer was a treasure chest in disguise. A 1968 faring accident involving Mr. Patterson required Mrs. Patterson's presence at the hospital and therefore, placed the major responsibility of running the household on Psyche. She was 14 years old at this time. All that she had learned in the previous 5 years of 4-H Club suddenly proved to be very useful and timely.

Psyche Patterson

Carlton Whitman Is  
Killed In Accident

One of Elba's finest natives, Carlton Flournoy Whitman, son of Mr. and Mrs. Flournoy Whitman of Elba, died in a tragic death last Friday afternoon near his home in Gainesville, Florida.

Whitman, 36, an assistant professor of music at the University of Gainesville, Florida, died instantly when his car was crushed by a train. Whitman was alone in his car when it was hit broadside by a Northbound Seaboard train at the intersection of SR 121 and U. S. Highway 441. He was approaching the railroad crossing at about 25 to 30 miles per hour and didn't look as though he saw the stop sign just on the other side of the tracks, witnesses said.

The train was traveling north at about 58 miles per hour at the time of impact. Trooper D. M. Stanley said. The station wagon was hit squarely in the driver's side and driven down the tracks before it was pushed off to the side. The train came to a stop about 2,000 feet later.

Dorsey To Acquire Plastic Manufacturer

The Dorsey Corporation (AMEX), Chattanooga, a leading manufacturer of glass containers and cargo trailers, has announced an agreement in principle to acquire for an undisclosed amount of cash and notes, Sewell, Inc. (Private), Atlanta, Ga., and Orlando, Fla., and its wholly-owned subsidiary Sewell Plastics, Inc., according to an announcement by Herbert L. Oakes, president of Dorsey.

Sewell, Inc., with annual sales of approximately \$9 million, is a producer of blow mold polyethylene containers for milk, industrial chemicals, liquid detergents, institutional and home food products. The company is a leader in plastic gallon containers for milk industry. The company has five modern plants in Atlanta, Orlando, Charlotte, N. C., Miami and New Orleans.

Plant capacity represents over 225,000 square feet. Sewell, Inc., and Sewell Plastics, Inc., will become a subsidiary of The Dorsey Corporation.

Unbeaten Arton handed the Rebels their second loss of the year Friday night 14-0.

Zion Chapel Rebels played the Purple Cats too tough for over three quarters before a block punt proved to be the difference in the game. Midway through the fourth quarter, David Layton went back to punt for Zion Chapel on his own 20 yard line. The Purple Cats came roaring through to block it and recover the ball on the 16 yard line. Jimmy DuBose went in for the score and Arton led 6-0. Glen Allen added the point after and the score was 7-0.

Arton kicked off to Zion Chapel with about 4 minutes left to play in the game. The Rebels fumbled on the first play from scrimmage and Arton recovered on the 25 yard line. Once again Arton takes advantage of their opportunity as Henderson Byrd goes in from the 2 yard line. Zion Chapel was off sides and this time the kick was good.

The Rebels still showed their pride as they put the ball in play on their 20 yard line. Dickie Madrox
